

A NEW VILLAGE HALL? YOUR OPINION MATTERS!

While repairs to the Hall rumble on, we have started to look at the feasibility of building a new hall. Village Halls are vital to the lifeblood of the community, and Henstridge might greatly benefit from a new hall. The most important part of the process (apart from raising the money) is to consult with everyone in the village. Not only do we want to hear your views, but some funding sources rely on the response from the villagers.

Accordingly you will find enclosed with your "Wots On" magazine a carefully constructed questionnaire. I would ask that you sit down and respond as soon as possible, and then drop it in one of the collection boxes around the village. Once your responses have been analysed you will all be invited to a public meeting so that we may let you know the collective wisdom; refreshments will be free and prizes up for grabs!

So don't delay; when you get your form, fill it in and drop it off.
